TITLE : INDEX PRINT

ABSTRACT : PURPOSE: To obtain an index print that a copy which is desired to be extra printed by the order of extra printing can be surely magnetically recorded on the magnetic track of a film.

CONSTITUTION: The prints 14 are arranged on an index sheet 12 in a prescribed manner, and bar codes 16 corresponding to the respective prints 14 at the rate of 1:1 are provided on the upper part of the respective prints 14. When the extra printing of the prescribed print 14 of the sheet 12 is ordered, a check mark is given to a display column 17 provided on the left oblique upper part of the print 14. In a DP agent, the bar code 16 which is right adjacent to the column 17 where the check mark is given is read by a bar code scanner and a detail ordered way is read based on an order code table through the bar code, besides. Then, it is magnetically recorded on the magnetic track of the film. In the DP agent or a processing laboratory, the extra printing of the print 14 corresponding to the bar code 16 is executed.
